

Skills Summit Workshops

Apprenticeships – The Keys to Business Success

An interactive workshop discussing the benefits and barriers of hiring an apprentice.

The workshop will involve the input from small businesses employing apprentices, apprentices themselves and various apprenticeship providers as to why they are so valuable in the workplace.

The workshop will allow delegates to explore; practical solutions of offering apprenticeships in workplace, the options available at different levels, modes of delivery, finances and other areas that would enable employers to benefit from these.

What can Higher Education and the University in South Kesteven do for you?

A workshop allowing delegates to hear and contribute to the plans for the new university centre which is coming to Grantham. The session, led by a range of HE providers, will encourage and facilitate discussion of the range of HE options around the district to feed into these plans.

This will be an interactive session encouraging delegates to share their ideas as to what they would like to see delivered in this centre and across the district.

Business Growth through Workplace Training

An interactive session exploring opportunities provided by training the work force, discussion of some of the barriers to making it happen and hearing from businesses that are developing all of their staff and the benefits they gain from this.

Delegates will be encouraged to contribute their ideas and thoughts as to their own business training needs, analyse where there are gaps in the provision, and discuss the wider delivery of skills and training need analysis in the workplace.
